One hundred and twenty-five new books were added to the library during the year. We joined the Literary Guild and the Junior Literary Guild through which we received four books a month chosen by the Guild, representing the latest and best books suitable for the ages of all classes.

Miss Annable, State Librarian from Concord, visited the library in September, and noted the fact of the smallness of our quarters in which to do efficiently the work that comes to the library.

The circulation increased due to the book work required by the scholars in the schools and people not working found more time to read.

The number of volumes taken out was nine thousand six hundred and thirty-three, as follows:

Fiction,	4,854
Non fiction,	2,823
Juvenile,	1,956

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Troy School Board:

I submit herewith my thirteenth annual report as Superintendent of Schools, this being the thirty-first in the series under union supervision. I also submit the report of Miss Margaret E. Harris, School Nurse, also the statistical table for 1929-30, and the first twelve weeks of the school year 1930-31, the roll of perfect attendance, and the graduates of the high and junior high school in June, 1930.

Only one change took place in the list of teachers for the present year. Miss Marion E. White who had taught the sixth grade during the past two years asked for a release to accept a position in Lexington, Mass. To fill this vacancy we were very fortunate in being able to secure the return of Miss Catherine R. Woodbury, who taught this grade previous to her service in New York.

The enrollment in the senior high school is the same as last year, thirty-five is given at the registration for each school year, while the junior high registration is thirty, a decrease of five from last year. The primary building shows a decrease of fifteen from the first twelve weeks of the school year 1929-30.

The work of all the schools has been **very encouraging** during the present year. I feel that if more parents were interested to visit the schools there would be a greater appreciation of the work that is being done by our teachers.

The health work, which was so effectively carried on by Mrs. Warner last year, was interrupted at the opening of the present school year, as her illness compelled her to give it up at that time, and it was not until the opening of the term in January that we were able to secure Miss Harris, who is now carrying on the work in a very thorough and capable manner.

The budget for the school year beginning July 1, 1931 has been very carefully made up in order to avoid asking for more school money than is actually needed to efficiently carry on the work.

It must be borne in mind, however, that Troy is a state aided town, and in order to comply with the requirements for state aid a certain approved standard of teachers, buildings, equipment and administration must be met. To lower the standard in any particular would mean a corresponding loss of state aid and a consequent increase in expense to the town.

For the past eleven years Troy has received a generous amount of state aid because the standards have been met, and I feel confident that the citizens have no desire to lower the efficiency of the school system.

I wish at this time to thank the school board, teachers, pupils, and all parents and citizens who have given their support and co-operation during the past year.

Very truly yours,

LEWIS S. RECORD,

Superintendent of Schools.

East Jaffrey, N. H., February 2, 1931.

REPORT OF SCHOOL NURSE

Troy, N. H., Feb. 2, 1931.

To the Superintendent of Schools:

I submit herewith the following brief report of the health work in the school during the past year.

Fifty pupils had their teeth cared for.

Sixteen had tonsils and adenoids removed at the Keene hospital.

Ten had glasses fitted.

Thirty-three were vaccinated.

Thirty-five were given examinations at the clinic for underweight children.

A dental clinic for the convenience of school children is being conducted by Dr. Metevier at his office in Keene.

The special reduced rates given makes it possible for the pupils to have their teeth cared for at very small cost.

Frequent inspections were made by the nurse for the detection of communicable diseases, including pediculosis, and whenever such cases were found the children were excluded from school until the danger of transmitting the disease was past.

Numerous visits were made to the homes to explain to the parents the necessity of having the defects of their children corrected.

In conclusion I wish to thank the teachers, parents, children, organizations and individuals, for their splendid co-operation in the health work in the schools.

Respectfully submitted,

MARGARET E. HARRIS,

School Nurse.
